EASY CLEANING GRATE MAGNET

DUST-TIGHT GRATE FILTRATION BUILT FOR FAST, HANDS-FREE MAINTENANCE

Maximum Strength. Minimum Maintenance.

The Easy Clean Industrial Grate magnet combines the extreme strength of rare earth magnetic tubes with a simple pull-push cleaning design, making maintenance fast and effective. Housed in a dust-tight stainless steel enclosure with inlet and outlet flanges for easy installation, it features an integral discharge chute for stripped contamination and a rear inspection door for easy access.

FEATURES

- **Stainless steel housing**
- **Separate contamination discharge chute**
- **Pull-push design scrapes contamination build-up**
- **Available in one or two rows of grates**
- **Standard sizes: 10, 12, 14 and 16 inches**
- **Custom sizes are available**
- **Inlet and outlet flanges with installation holes**

BENEFITS OF THE EASY CLEANING GRATE MAGNET

- **Fast, hands-free maintenance** - pull-push design strips contamination from tubes without manual wiping
- **Improved product purity** - extreme strength rare earth magnetic tubes effectively capture ferrous contaminants
- **Reduced downtime** - quick-release toggle clamps and rear inspection door allow for easy access and servicing
- **Simple installation** - inlet and outlet flanges fit square, rectangular, or round pipes with ease
- **Flexible configuration** - available in one or two rows of grates
