YOUR SOURCE FOR FORCE

MSA CABLE-MATE MAGNETIC LEAD HOLDER

A breakthrough in electrocution & trip hazard risks!

The MSA Cable Mate features a high-strength rare earth magnet which will hold to any magnetic steel surface. Simply attached the magnet to the magnetic surface and redirect the cable through the tool.

Features a large HDPE plastic adjustable strap, which can support multiple leads.

Can be used as a temporary or permanent installation either above or below ground.

Some of the most popular industries include:

- Mining operations
- Hospitals & Medical Centres
- Electrical operations
- Factory/workshops
- Offices
- Construction sites

Supports:

6+ cables

Support Weight:

25kg ($\pm 5\%$)

Dimensions:

120mm W x 250mm H

Are you serious about safety?

**Protect yourself and your co-workers
from injury caused by cables and
leads!**
