

MSA Cable Safety Range

Magnetic Solutions for Safer, Cleaner Worksites

Workplace Health & Safety (WHS) statistics show that a large proportion of workplace slips, trips and falls are a direct result of disorganised cables lying in areas where operators frequently operate or walk around. The MSA Magnetics Cable Safety Range offers a quick, effective, and inexpensive way to prevent cables from becoming a major trip hazard!

Key Features & Benefits:

- High-Strength Rare Earth Magnet - Securely attaches to any magnetic surface
- Suitable for temporary or permanent use
- Quick & Easy Setup
- Versatile & Reusable
- Durable Adjustable Strap
- Compact and Robust Design
- Reduce Trip Hazards & Increase Safety

Simply Attach, Wrap and Go!

These tools can be used as a temporary or permanent installation either above or below ground. Effective on cables, leads, hoses, wires, chains, and more!

Cable-Mate

Features a large HDPE plastic adjustable strap.

- **Supports: 6+ cables**
- **Support Weight: 55lb / 25kg ($\pm 5\%$)***
- **Dimensions: 4.72" x 9.84" / 120mm W x 250mm H**

FRAS Cable-Mate

Complies with FRAS (Fire Resistant Anti-Static) requirements for mines and confined spaces. Suitable for high temperature and heavy-duty applications.

- **Supports: 6+ cables**
- **Support Weight: 55lb / 25kg ($\pm 5\%$)***
- **Dimensions: 3.94" x 8.66" / 100mm W x 220mm H**

Cable-Buddy

Features a yellow, high visibility quick-acting lead clip.

- **Supports: 3+ cables**
- **Support Weight: 11lb / 5kg ($\pm 5\%$)***
- **Dimensions: 1.18" x 4.72" / 30mm W x 120mm H**
