

Fusion™ Continuous Discharge Magnetic Sweeper

High-Speed Surface Preparation Cleanup

Sealed Drum

- Completely sealed magnetic drum won't allow steel shot inside
- Built with a high-impact PVC round housing
- Formed from a robust, non-magnetic aluminum frame spinning on a solid steel axle
- Heavy-duty, non-marking thermoplastic wheels with sealed bearings front and rear.

40% Faster Cleanup

- Cut your jobsite cleanup time by 40% compared to traditional magnetic sweepers
- The sweeper automatically cleans itself while sweeping, ensuring you always maintain 100% pickup strength
- Pick up shot as fast as you can comfortably walk
- Optimally balanced 35 lb sweeper weight minimizes physical operator strain

High Payload Capacity

- Keep moving until the tray is completely full—holding up to approximately 22 lbs of steel shot
- Simply slide out and empty the shot tray directly back into your equipment or storage bins

100% Extraction

- Alternating pole C8 magnets and patented Ripwhirl Technology project a deep magnetic field designed to pull 100% of shot out of rough surfaces up to 1" deep
- Engineered to comprehensively capture all standard shot sizes from #170 to #550

Technical Specifications:

Product Name	Fusion - Handheld Magnetic Sweeper
Sweeper Width	Fusion 25 - 24"
Magnet Sweeper Housing (magnetic drum)	High Impact PVC
Debris Tray	Yes - removable tray
Ground Clearance	Fusion 25 - 0.150" at lowest fin point
Total Product Weight	Fusion 25 - 35 lbs
Shipping Weight	Fusion 25 - 39.5 lbs
Lifting Weight (measures in 2 1/2" 8 penny nails)	N/A
Cleaning Method	Automatic continuous discharge to shot tray
Wheels	Fusion 25 - 5" wheels on front, 3" wheels on rear. Both sets Thermo-plastic, non-marking with sealed bearings
Height Adjustability	Fusion 25 - No
Sweeper Handle	Fusion 25 - 3 piece Aluminum
Magnets	C8
Maintenance Requirements	None

Why waste 40% of your labor hours cleaning up by hand?

Stop stopping. Stop cleaning off magnets. Put the non-stop, continuous-discharge power of the Fusion™ to work.
